Overview

KEY FEATURES & BENEFITS

- ∴ Compact 3-in-1 printer – space-saving design with great performance.
- ∴ Wi-Fi & Wi-Fi Direct – wireless printing with or without a network¹
- ∴ Convenient and efficient – double-sided printing & a convenient 1.44" colour LCD for easy navigation.
- ∴ 4 individual ink cartridges – save money by only replacing colour used.

SLEEK AND STYLISH 3-in-1

This stylish and affordable 3-in-1 delivers much more than just the basics from its compact footprint. Its prints are clear, vibrant and cost effective thanks to individual inks and double-sided printing. Printing away from a desktop is made easy with a range of compatible mobile printing apps and 1.44" LCD screen.

AFFORDABLE INDIVIDUAL INK CARTRIDGES

Depending on what you are printing – lots of blue skies will mean your cyan will need replacing sooner than other colours – your printer's ink will reduce at different levels. With individual inks you only need to replace one cartridge at a time – the one that actually needs replacing. With tri-colour cartridges, you end up throwing away the entire cartridge even if just one colour runs out, meaning you waste the good ink you have left. Wasted ink is just wasted money. Epson individual ink cartridges means you save money and don't waste ink.

EPSON SMART-PANEL

An innovative interface, the Epson Smart Panel app² transforms your iOS® or Android™ mobile device³ into an intuitive control centre for your Epson Expression Home XP-3200. This powerful tool makes it easy to set up, monitor, print, scan and more using your Epson printer, right from your hand-held device. With quick-configuration features, it offers easy product setup on your wireless network and automatically detects your printer. Customise the app to your own preferences and requirements. Built to offer everything you need in one convenient app, Epson Smart Panel allows you to register your product, order supplies and easily access troubleshooting tips.

POWERED BY HEAT-FREE TECHNOLOGY

The Epson Expression Home XP-3200 is powered by Epson Micro Piezo with Heat-Free Technology. Micro Piezo technology utilises piezo crystals that pulse when electrical signals are sent to them by the printer. It produces incredibly consistent droplets, both in shape and size, to deliver clear and sharp prints.

Simple wired & wireless connectivity

The Epson Expression Home XP-3200 supports the latest wireless standard, 802.11 b/g/n⁴ and includes Wi-Fi Direct[®]. Which means no router is required, providing users with greater coverage and faster speeds. You can use your printer from anywhere in your home and share it with multiple PCs.

Print from your iPad or iPhone

Apple[®] AirPrint[™] makes it simple to print emails, web pages, presentations and documents straight from their iPad or iPhone. There's no software to download, no drivers to install and no cables to connect. Your Apple[®] IOS[®] device will automatically connect to the printer.

¹Most features require an Internet connection to the printer, as well as an Internet and/or email-enabled device.

² Requires Epson Smart Panel app download. Data usage fees may apply.

³ Compatible mobile device operating systems — for iOS: 11.0 or later; for iPadOS[®]: OS 13.1 or later; for Android: 5.0 or later.

⁴ Wi-Fi CERTIFIED[™], level of performance subject to the range of the router being used. Wi-Fi Direct may require printer software.

⁴ Display permanence based on accelerated testing of prints displayed under glass in indoor display conditions; album permanence based on accelerated testing of prints in dark storage conditions. Actual print stability will vary according to media, printed image, display conditions, light intensity, temperature, humidity and atmospheric conditions. Epson does not guarantee the longevity of prints. For maximum print life, display all prints under glass or UV filter or properly store them.

This printer is designed to function only with genuine Epson ink cartridges and not with third party ink cartridges. The printer may not function properly or at all if you use third party ink cartridges.

Usage Conditions

Epson products are designed and made to give highly reliable use and long life when used according to its specifications. With any system, product or device used in situations where human life may be involved or at risk, Epson advises that you should take all necessary steps to ensure the suitability of your Epson product for inclusion in your system, and recommends that you include fail-safe procedures and redundancy support or backup equipment in your system, to maintain the maximum safety margin and optimum system reliability. Examples include but are not limited to – do not interfere with any electrical components within the device, do not use items supplied with the product for purposes other than as intended by Epson (ie mains cords, inks, CDs, plastic wrapping) and do not make modifications to the product.

This printer is designed to function only with genuine Epson ink cartridges and not with third party ink cartridges. The printer may not function properly or at all if you use third party ink cartridges.

Consumables

Warning to Epson printer owners. Many well known third party companies claim their inkjet printing papers are compatible with all Epson inkjet printers. Epson has reports from many customers who have used third party paper and have been very disappointed with the results. When the same customers have changed to genuine Epson paper, they have been amazed and pleased with the colour and quality of their prints. Epson recommends that you do not use any non genuine printing papers if you want to get the best results from your Epson printer. Epson printers are very carefully tuned to ensure Epson inks and Epson's patented MicroPiezo™ printhead produce the best quality prints using carefully selected Epson paper.

This printer is designed to function only with genuine Epson ink cartridges and not with third party ink cartridges. The printer may not function properly or at all if you use third party ink cartridges.

Equipment supplied by Epson Australia is designed to function in conjunction with genuine Epson consumables and accessories specifically configured for it.
